

# Instapacker® Tabletop

Foam-in-Place Packaging System

Workstation, Instapak® chemicals and film not included.

**Enjoy all the proven benefits and cost savings of foam-in-bag packaging with an affordable, user-friendly Instapak® system.**

**Maximum Value:** This low-cost, foam-in-bag system reduces material and labor costs.

**Easy to Use:** A simplified touch-key control panel virtually eliminates the operator's learning curve.

**Compact:** Small, innovative design saves valuable workspace.

**Flexible:** The Instapacker® Tabletop system supports the packaging needs of shipping rooms, multiple pack station operations and even the production floor.

**Protective:** Instapak® high-performance packaging foam is designed to protect your products during shipping, warehousing and general handling.

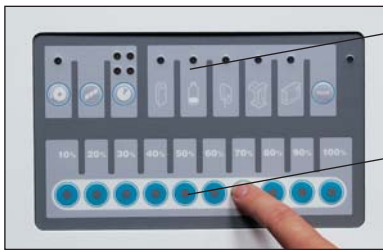

# Instapacker® Tabletop Foam-In-Bag System

## Affordable Packaging At The Touch Of A Button

With a minimal investment, the Instapacker® Tabletop foam-in-bag system will maximize your packaging productivity, reduce your material costs and increase customer satisfaction.

With the simple touch of a button, operators can produce up to 16 foam-filled bags per minute, guided by easy-to-follow graphics on the touch-key control panel. To simplify handling, the Instapacker® Tabletop system utilizes two sizes of perforated film rolls with a fixed bag size: IP16 (19" x 16") and IP24 (19" x 24").

- Simple diagnostic indicators show system status.
- Ten preset touch keys easily control foam amount.

## Instapacker® Tabletop System Features

- Produces up to 16 Bags Per Minute
- Adjust the amount of foam by simply pressing any one of 10 present touch keys.
- Set a time delay of 3 or 6 seconds between bags.
- Option to run continuous bags.
- Compatible with all Instapak® foams.

## Instapacker® Tabletop System Specifications

- 200-240 VAC Dedicated Circuit, 30 Amp, Single-Phase with equal voltage from each leg to ground
- Receptacle Type: NEMA L6-30R
- UL and CE Approved
- System Dimensions: 19" x 19" x 28"

## Here's How It Works

**Step 1:** Press any one of the 10 preset foam amount keys to dispense a foam-filled bag. Remove the bag of expanding foam by tearing at perforations.

**Step 2:** The Instapak® foam-filled bag is placed into the carton and the product to be packaged is placed on top of the expanding bag.

**Step 3:** A top cushion is formed by placing a second Instapak® foam-filled bag on top of the product and closing the carton.
